Guidelines for the publication of an Abstract on the NRH website

Introduction

Once original research through the NRH and collaborating organisations is complete and the final research report has been reviewed by the NRH Ethics Committee, the Researcher will be asked by the NRH Ethics Committee for their consent to publish the research on the NRH website.

With this in mind the below guidelines will aid those completing an abstract for publication on the NRH website. Once the abstract is complete, the author will be asked to submit same to the NRH Ethics Committee Secretary in time for the meeting it is accepted at for vetting. Once approved, the abstract will be uploaded on the NRH Website.

It is important to note that when drafting an abstract, it should be:

- **Relevant** - to those interested in it.
- **Of interest** - from a personal, professional or public interest perspective.
- All the above should be done in such a manner so as to raise the profile of the Researcher, Institution and Public interest.

Please complete the Abstract using the below Outline/ Guidelines:
