

Applications are invited from suitably qualified persons for vacancies as:

SHOs IN REHABILITATION MEDICINE

The National Rehabilitation Hospital (NRH) in Dun Laoghaire is the national tertiary referral centre for Ireland providing complex specialist rehabilitation services to adult and paediatric patients from all parts of Ireland in a range of CARF-accredited in-patient, out-patient and community programmes. The NRH is a fully publicly-funded voluntary hospital and operates on the ethos of providing high quality care and treatment to patients on the basis of clinical need, irrespective of background or status. The NRH receives medical students from all three Dublin medical schools (UCD, TCD and RCSI).

The NRH is undergoing a major transformation of its facilities and services. Phase 1 of the redevelopment project has been fully operational since June 2020 and provides a unique, purpose-built facility that includes 120 single ensuite rooms with integrated therapy, clinical and social spaces.

We are very proud of this new development and are seeking dynamic medical staff to join our existing team of consultants and SpRs in Rehabilitation Medicine. Experience in Rehabilitation Medicine forms a component of training in several related medical sub-specialties and is excellent preparation for any career that involves caring for patients with chronic illness such as general practice. These posts would also be ideal for candidates preparing for post graduate clinical examinations. Those candidates with an interest in paediatrics should indicate their preference in their covering letter.

We can offer you:

- ✓ Supported career development and consultant-supervised training
- ✓ An established CPD programme including consultant and SpR-led teaching sessions and journal clubs
- ✓ BLS, ACLS Course run in-house several times each year
- ✓ Ample car parking, staff canteen and close proximity to the M50 Motorway, Dublin

All doctors must:

- Be registered in the Register of Medical Practitioners, maintained by the Medical Council of Ireland, in accordance with the Medical Practitioners Act 2007 by 9th January 2022 or earlier to take up appointment from that time.
- *Have worked in an acute hospital post in the EU or UK*
- Participate in the onsite on-call rota for medical supervision of in-patients
- Have current ACLS (Advanced Cardiac Life Support) Certification or be willing to undertake ACLS after joining as you will carry the cardiac arrest bleep on call

For informal enquiries, please contact Prof. Jacinta Morgan, NRH Clinical Director, by emailing medicalrecruitment@nrh.ie.

Applicants can apply with an up to date CV by email to medicalrecruitment@nrh.ie before **06th December 2021 by 12pm**. Shortlisting will be carried out on the basis of the information supplied in your CV using essential criteria outlined above.

We are an Equal Opportunities Employer and support a smoke-free workplace policy.
